Attention: Mr. A. E. Amer, President

Reference: Our Purchase Order 13-KRA-740-JC, Your
Amer #N-881 (Air Accumulator Tanks)

Subject: Letter of Appreciation

Gentlemen:

As you know, timely delivery is perhaps the most important part of the entire purchasing process. It is important to both the Buyer and Seller, and, of course, the ultimate user - the Yugoslavian Customer. Yet timely delivery is often ignored by many. Amer's efforts in shipping the above contract hardware by December 31, 1978 have been noted by Westinghouse Power Systems Projects Division. In appreciation of these efforts, we would like you to have the enclosed construction site photograph of the KRSKO Nuclear Power Plant in which the components you supplied on the above order will be used. Please note that the photo is not for publication, but for Amer's internal use only.

Best Regards,

Edward A. Rudaitis
